Resurfacing Project on Sauk Trail from Torrence Avenue to U.S. 30

CHICAGO – The Illinois Department of Transportation (IDOT) announced that intermittent daily lane closures will take place on Sauk Trail from Torrence Avenue to U.S. 30, in Sauk Village, beginning, weather permitting, the week of April 10. The closures are necessary for a resurfacing project on Sauk Trail.

In order to complete the work, daytime lane closures will take place on Sauk Trail between Torrence Avenue and U.S. 30.

The scope of the project consists of resurfacing, pavement patching, and pavement widening to add left turn lanes at Burnham Avenue. It is expected to be completed in Summer 2017.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.
